Ref: REACH EUsupltr (Regulation (EC) 1907/2006)

Dear Supplier,

In accordance with REACH, EC No. 1907/2006, it is essential for Contico to know if you as either manufacturer or importer into the EU, will register the substances in the products that we source from you, in order to confirm that these substances will be available in the future. If you are not the manufacturer or importer into the EU, but a distributor of substances within the EU, please confirm the intention to pre-register or register by your upstream manufacturer/importer.

As part of our own REACH requirements, we need to ensure we are applying the appropriate risk management measures and able to communicate them to our users. Therefore please ensure your COSHH SDS (Safety Data Sheets) are updated accordingly when required by REACH, including REACH Registration numbers and forwarded to us as soon as possible.

It is most important that all responses are received back promptly and would therefore ask you to consider **29<sup>th</sup> August as the final date for submission.**

To assist each other with this complex legislation please provide full contact information for the person in your company responsible for REACH issues, so if we find any details that need your urgent attention we will contact you immediately.

Thank you in advance for your co-operation and I look forward to hearing from you.

Regards

N Man  
CML Quality Manager
